## FERRIER HEAVY DUTY DEWATERING PUMPS. IN STOCK NOW

**HD is one tough range of submersible dewatering pumps.**

①

Designed to cope with the rigours of construction and civil engineering sites, the HD range from HCP is engineered to deliver unhindered performance in the toughest of environments.

### Key features:

- ✓ Anti-corrosion - High Solid Epoxy coating protects the pump from corrosion and oxidization.
- ✓ Highly durable - Multi-impeller design with High Chrome Alloy steel impeller, wear plate and wear rings has a hardness rating of 55 - 60 Rockwell, making it the hardest, toughest impeller in the industry capable of handling solids up to 10mm in diameter.
- ✓ Compact design - The narrow design of the pump means it can easily fit into narrow tunnels and wells.
- ✓ Adaptable - The double outer casing and water cooled motor makes it possible to run the pump on a low water level.

**HD pumps are ideal for dewatering tunnelling, ground works and storm water sewers, are in stock now.**
